

APPENDIX VI: REVIEW COMPANIES AND MEDICAL REVIEWERS

Over the years, I have assembled a large collection of information of numerous medical review companies and medical reviewers. Most of these are summarized. Some are not. Most include documents whereas others do not. It was a catch-as-catch-can method of accumulation which took many hours of work just to keep these files until the day I scanned any remaining files while assembling this work.

These are offered as starting points for your research, especially since updating individual reviewers who I would never come in contact with again (retire, or die) is not feasible.
