

PROSECUTION, APPEAL, AND LITIGATION

OF ERISA-BASED DISABILITY CASES:

A COMPLETE GUIDE WITH DATABASE

BY SCOTT B. ELKIND, ESQ.

PRESIDENT, DISABILITY CONSULTANTS, LLC.

© 2019

ADMONITIONS, WARNINGS, AND OTHER CLARIFICATIONS

This database has been produced from a one-man show as I have worked solo in my efforts all these years. Therefore, despite proof-readings along the way, I do not guarantee any absence of typographical errors. This is particularly true with legal citations which can be prone to these errors, especially when typing numbers.

For this reason, it is urged that any person using this resource double check all citations.

Should you find typographical errors, please send me an email at disabilityconsultantstd@gmail.com so I can put in corrections during updates.

Further, as much as I have tried to provide a useful overview of many administrative and litigation topics, it is not a complete one. The cases cited are supporting cases only. I have not delved into cases which hold against positions. Obviously, during the course of litigation, defense counsel will make you aware of these cases. For this reason, I have endeavored to supply you with much needed arrows for your plaintiff quiver.

No matter what, you will need to shepardize cases as jurisdictional law changes and holdings differ. This is the glory of ERISA is that it is consistently inconsistent.

Thank you in advance for your contributions (and criticisms - as you are all attorneys and will not be able to refrain from commentary).

What you have purchased is an immense “leg up” in starting an ERISA-based disability benefits practice which cannot be obtained by any other means than either joining a law firm with an established database (which is still far from complete as this one) or developing your own over 25 years of practice in this area.

–Scott

TABLE OF CONTENTS

INTRODUCTION

UNDERSTANDING THE DISABILITY CONSTRUCT

Definitions of Disability

How Disability Is Determined

UNDERSTANDING THE STANDARD OF REVIEW
